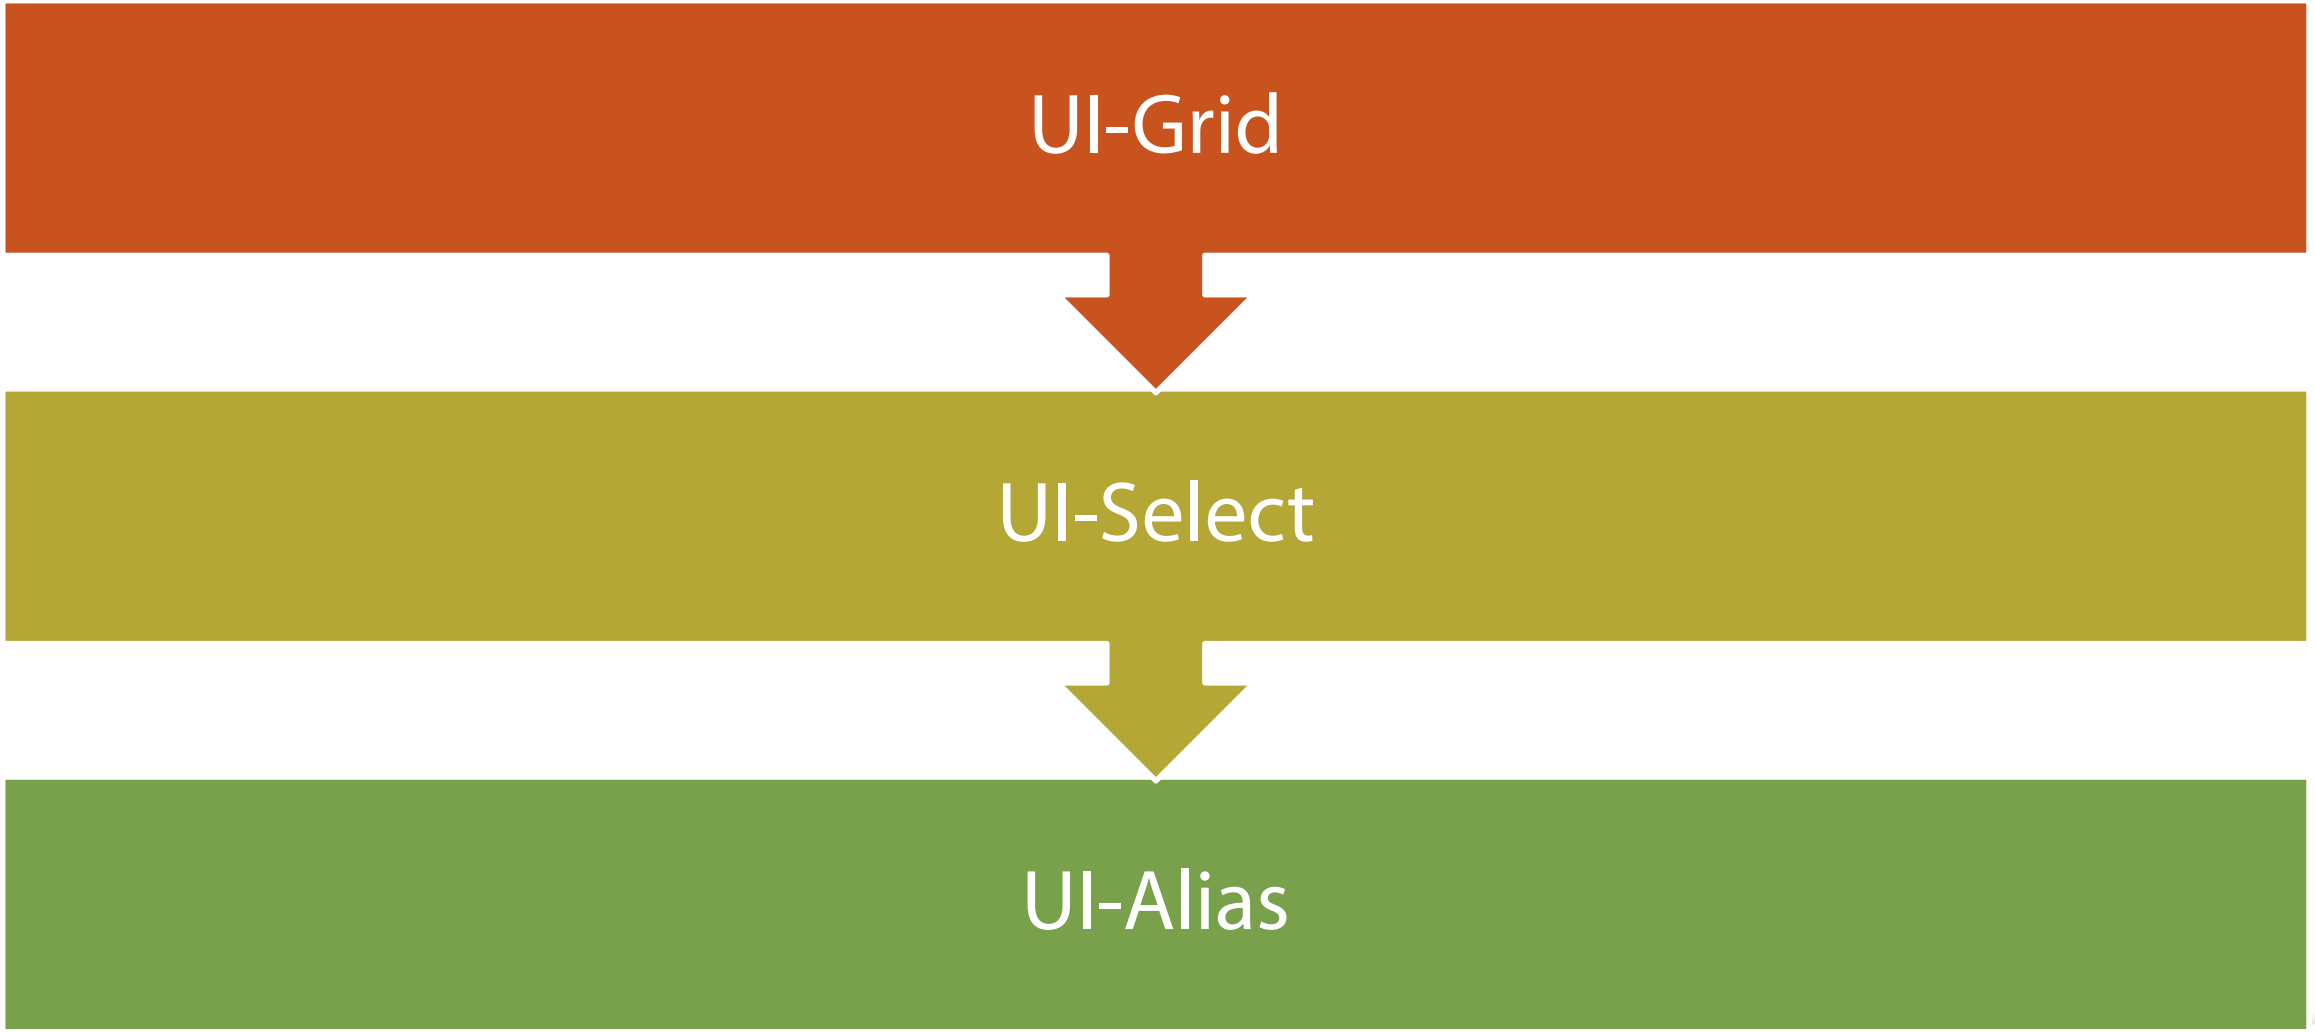
pluralsight

# Overview



pluralsight

# UI-Grid

- Native Angular rewrite of NG-Grid (no jQuery)
- High Performance
- Plugin Architecture
- Customizable Appearance
- Standard user interactions (sorting, filtering, etc.)
- Advanced Features

pluralsight

# UI-Grid

| | | | |
|---|---|---|---|
| Sorting/Filtering | Virtualization | In-place Editing | Grouping |
| Grouping | Column Pinning | Grid Menu | Paging |
| Auto-Resizing | Import/Export Data | Internationalization | and more… |

pluralsight

# UI-Select

- Native Angular version of Select2 and Selectize (no jQuery)
- Search, Select, Matchers
- Multi-Select / Tagging
- Grouping
- Supports Themes
- Keyboard Support

pluralsight

# UI-Alias

Renamed third-party directives

Simplify templates internally

```
<input ui-date ui-date-format="mm/dd/yyyy" />

Becomes:
<date/>
```
